### **Examiner's Amendment**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In the title:**

a. Please change the title to the following:

Method of Manufacturing a Printed Wiring Board Having a Discontinuous  
Plating Layer

2. The following is an examiner's statement of reasons for allowance:

The instant invention is distinguished over the prior art of record by providing a method of plating an electrical contact on a substrate comprising the formation of dielectric layers on opposing sides of a substrate, forming first and second plating layers over the dielectric layers and on exposed portions of a metal interconnect formed through a via, wherein the first plating layer is discontinuous, and electroplating contact layers over portions of the plating layers. The prior art methods, as best exemplified by Figure 6 of Koyama (U.S. Pat. No. 6,254,758), use continuous plating layers. The use of continuous plating layers requires the use of a resist to prevent electroplating in unwanted areas (see step (b)). The additional steps of applying a resist (step (d)), followed by the removal of the first resist and the underlying plating layer (steps (e) and

(f)), and the removal of the second resist (step (g)) are also required. Through the formation of a discontinuous first plating layer, the instant invention eliminates the steps required to add and remove resists to prevent unwanted plating, while providing electrical current to the discontinuous first plating layer through the vias by way of the second plating layer and the interconnect.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
